ELASTIC CORD TIE DOWNS (SHOCK CORD)

Single and multi-claw elastic tie-downs are ideal for holiday and recreational use. All produced from pre-cut shock cord. For reeled Shock Cord see ROPE section.

For safety reasons never stand in direct line of tensioned elastic cord and do not extend by more than twice the unstretched length.

Produced with 4mm braided Shock Cord.

Lightweight and easy to handle, strong, flexible and washable. Reinforced edges for extra strength. 90GSM thickness. With Aluminium eyelets

Green laminated tarpaulin complete with aluminium eyelets. LDPE coating on both sides making it resistant to tearing, cracking, rusting, mildew, water penetration and sub-zero temperatures.

TARPAULIN

At Eliza Tinsley we listen to our customers and have re-specified our tarpaulins by introducing the new Laminated Tarpaulin to our range. It is tougher and more durable, able to withstand all weather conditions; making it ideal for all agricultural, industrial and domestic uses. Fitted with aluminium eyelets. LDPE coating on both sides making it resistant to rusting, tearing & cracking, mildew and sub-zero temperatures. Lightweight and easy to handle. Flexible and washable. Reinforced edges for strength. 90GSM thickness.

QUICKTRADE

When you're in the trade, speed is key. Having the facility to order quickly and conveniently is paramount to all of our trade partners. With that in mind we have created an online ordering portal as well as a smart phone and tablet app.

Your account on-the-go!

QuickTrade allows you to order efficiently via an easy to use portal interface which works with your unique account details to show you your prices.

Broken down into easy to understand categories designed to mirror our catalogue, QuickTrade is available to all Eliza Tinsley customers on request and will give you 24/7 easy access to placing orders.

We've also developed an app that works harmoniously with the portal for use on the move.

Working with your handheld device, the app also incorporates a very useful bar code scanning system which allows our trade partners to simply scan product codes directly into your shopping basket for easy and simple re-ordering.

The app and the portal talk to each other so once a communication has been made with the Cloud, your dedicated machine being used as the portal base, will receive details and orders from the mobile app.

Eliza Tinsley

Header Boards

Our easy to understand, image driven stand headers, direct your customers with confidence to the products they need. Sporting the renowned Eliza Tinsley brand and with bright colours, these boards can be seen at a distance, easily signposting the stand location.

Bus Stops

Our bus stops offer more detail, giving a more enhanced overview and empowering the customer with the relevant information. Without taking any retail space away from the stand, these bus stops are a great way to educate your customer of the range on offer.

Retail Display Stands

Eliza Tinsley are proud to support our trade customers with eye catching point of sale materials
